

MORSUN CHLORINATED RUBBER THINNER

PRODUCT CODE

MCS-TH-902

PRODUCT DESCRIPTION

Chlorinated Rubber Thinner is an aromatic hydrocarbon based solvent with a moderate evaporation rate. It provides relatively fast initial off allowing for better vertical holdup.

SUGGESTED USES

Can be used as thinner for Chlorinated Rubber based solvent based paints and other solvent based paints as specified in the relevant product.

TECHNICAL DATA

Appearance	Low viscosity, colourless clear liquid
Specific Gravity	0.87
Flash Point	25°C
Boiling Range	135 - 155°C
Thinning Recommendations	Spray application: 10-15% as required. Brush / Roller application: up to 10% as required. Application to concrete (first coat only): 20-25% to assist penetration into the surface.
Packs Available	20 litres & 5 litres
Flammability & Transport	Highly flammable, Dangerous Goods Class 3.2. Keep away from heat and flame, eliminate any source of ignition. Soak all used cloths and rags immediately in water to prevent self-ignition. Ensure the container is upright with the lid secure and is secured in the vehicle for transport.
Safety & Environment	The product must be handled in a properly ventilated area and with the necessary protective measures. Avoid sources of ignition. Avoid inhalation of the product and its vapour. Avoid contact with skin and eyes, using gloves and protective goggles. In case of splashing, wash with plenty of water. For more information consult the Safety Data Sheet. Store excess material in a ventilated and dry place. Close containers carefully and keep upright to avoid spills. Protect containers from frost, high temperature and direct exposure to the sun. Do not eat, drink or smoke during the preparation and application of the product. Keep out of the reach of children. Do not discharge into drains or the environment. Dispose of at an authorised waste collection point. Consult your local council for correct recycling of both the container, waste and surplus products according to the law and principles of environment respect.
